Allowable Subject Matter

1. Claims 1-12 are allowed.
2. The following is an examiner's statement of reasons for allowance: prior art does not teach in combination with the other limitations of the independent claims the differential gearing and its claimed limitations. Note that the teaching of the differential gearing in paragraph 20 of the specification, follows the conventional description and operation of such gears. Also note that three-spool turbofans were specifically designed to avoid use of a differential gearing, but it is not inherent for a two-spool turbofan to have such a gearing.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Newton 5867979.
